

ELSEVIER

Author Index, Volumes 41-44

- Aase, J.K., G.M. Schaefer and J.L. Pikul Jr.
Hayland conversion to wheat production in semiarid eastern Montana: tillage, yield and
hay production comparisons 44 (1997) 225
- Abolaji, J.O., *see* Varsa, E.C. et al.
- Aggarwal, R.K., Praveen-Kumar and J.F. Power
Use of crop residue and manure to conserve water and enhance nutrient availability and
pearl millet yields in an arid tropical region 41 (1997) 43
- Allmaras, R.R., *see* Juzwik, J. et al.
- Allmaras, R.R., *see* Wu, L. et al.
- Andreux, F., *see* Chen, J.N. et al.
- Angers, D.A., M.A. Bolinder, M.R. Carter, E.G. Gregorich, C.F. Drury, B.C. Liang, R.P.
Voroney, R.R. Simard, R.G. Donald, R.P. Beyaert and J. Martel
Impact of tillage practices on organic carbon and nitrogen storage in cool, humid soils of
eastern Canada 41 (1997) 191
- Aragon, A., *see* Jorajuria, D. et al.
- Arora, V.K., *see* Gajri, P.R. et al.
- Arrué, J.L., *see* López, M.V. et al.
- Arshad, M.A. and K.S. Gill
Barley, canola and wheat production under different tillage-fallow-green manure
combinations on a clay soil in a cold, semiarid climate 43 (1997) 263
- Babiker, E.A., *see* Dawelbeit, M.I. et al.
- Bachand, D., *see* Tessier, S. et al.
- Balasubramanian, M., *see* Divaker Durairaj, C. et al.
- Balasubramanian, M., *see* Divaker Durairaj, C. et al.
- Barchia, I., *see* Willis, T.M. et al.
- Bauer, P.J., *see* Busscher, W.J. et al.
- Berbeć, S., *see* Lipecki, J. et al.
- Beyaert, R.P., *see* Angers, D.A. et al.
- Blair, J.M., *see* Nokes, S.E. et al.
- Bolinder, M.A., *see* Angers, D.A. et al.
- Bomke, A.A., *see* Hermawan, B. et al.
- Borresen, T., *see* Olsen, P.A. et al.
- Bouma, J., *see* Minh, L.Q. et al.
- Boyer, D.G., *see* Staley, T.E. et al.
- Bremer, E., *see* Larney, F.J. et al.
- Bulygin, S.Y., *see* Medvedev, V.V. et al.
- Busscher, W.J., P.J. Bauer, C.R. Camp and R.E. Sojka
Correction of cone index for soil water content differences in a coastal plain soil 43 (1997) 205
- Camp, C.R., *see* Busscher, W.J. et al.
- Carefoot, J.M. and H.H. Janzen
Effect of straw management, tillage timing and timing of fertilizer nitrogen application
on the crop utilization of fertilizer and soil nitrogen in an irrigated cereal rotation 44 (1997) 195

- Carter, M.R., *see* Angers, D.A. et al.
- Carter, M.R., *see* Sturz, A.V. et al.
- Castillo, J.E., *see* López-Bellido, L. et al.
- Chen, J.N., J.C. Coquille, J.P. Douzals, R. Sabre and F. Andreux
 Frequency composition of traction and tillage forces on a mole plough 44 (1997) 67
- Chen, Y., *see* Tessier, S. et al.
- Chi, L., *see* Tessier, S. et al.
- Chong, S.-K. and P.T. Cowpert
 Infiltration in reclaimed mined land ameliorated with deep tillage treatments 44 (1997) 255
- Chong, S.K., *see* Varsa, E.C. et al.
- Choudhary, M.A., R. Lal and W.A. Dick
 Long-term tillage effects on runoff and soil erosion under simulated rainfall for a central Ohio soil 42 (1997) 175
- Cogle, A.L., K.P.C. Rao, D.F. Yule, P.J. George, S.T. Srinivasan, G.D. Smith and L. Jangawad
 Soil management options for Alfisols in the semi-arid tropics: annual and perennial crop production 44 (1997) 235
- Comia, R.A., *see* Etana, A. et al.
- Constable, G.A., *see* Rochester, I.J. et al.
- Copeland, S.M., *see* Juzwik, J. et al.
- Coquille, J.C., *see* Chen, J.N. et al.
- Cowpert, P.T., *see* Chong, S.-K. et al.
- Da Silva, A.P., B.D. Kay and E. Perfect
 Management versus inherent soil properties effects on bulk density and relative compaction 44 (1997) 81
- Dawelbeit, M.I. and E.A. Babiker
 Effect of tillage and method of sowing on wheat yield in irrigated Vertisols of Rahad, Sudan 42 (1997) 127
- De Luna, E., *see* Oostwoud Wijdenes, D. et al.
- Denardin, J.E., *see* Selles, F. et al.
- Dexter, A.R.
 Physical properties of tilled soils 43 (1997) 41
- Dexter, A.R., *see* Watts, C.W. et al.
- Dick, W.A.
 Tillage system impacts on environmental quality and soil biological parameters 41 (1997) 165
- Dick, W.A., *see* Choudhary, M.A. et al.
- Dick, W.A., *see* Jacinthé, P.-A. et al.
- Divaker Durairaj, C. and M. Balasubramanian
 A method for dynamic measurement of soil failure patterns caused by tillage tools 41 (1997) 119
- Divaker Durairaj, C. and M. Balasubramanian
 Influence of tool angles and speed on the soil reactions of a bent leg plough in two soils 44 (1997) 137
- Djurhuus, J., *see* Møller Hansen, E. et al.
- Djurhuus, J., *see* Møller Hansen, E. et al.
- Donald, R.G., *see* Angers, D.A. et al.
- Douglas, J.T. and A.J. Koppi
 Soil structural quality: a case study of soil macropore attributes after seedbed preparation with different wheel traffic systems 41 (1997) 249
- Douzals, J.P., *see* Chen, J.N. et al.
- Draghi, L., *see* Jorajuria, D. et al.
- Drury, C.F., *see* Angers, D.A. et al.
- Dugas, W.A., *see* Reicosky, D.C. et al.
- Ekeberg, E. and H.C.F. Riley
 Tillage intensity effects on soil properties and crop yields in a long-term trial on morainic loam soil in southeast Norway 42 (1997) 277

- Elamin, E.M., *see* Omer, M.A. et al.
 Engelstad, F., *see* Sveistrup, T.E. et al.
 Entwistle, P., *see* Hulugalle, N.R. et al.
 Etana, A., R.A. Comia and I. Häkansson
 Effects of uniaxial stress on the physical properties of four Swedish soils 44 (1997) 13
 Faganello, A., *see* Selles, F. et al.
 Farquhar, D.A., *see* Varsa, E.C. et al.
 Fausey, N.R., *see* Nokes, S.E. et al.
 Fernández, E.J., *see* López-Bellido, L. et al.
 Fernández, J.E., *see* Moreno, F. et al.
 Feyen, J., *see* Mwendera, E.J. et al.
 Fuentes, M., *see* López-Bellido, L. et al.
 Gajri, P.R., J. Singh, V.K. Arora and B.S. Gill
 Tillage responses of wheat in relation to irrigation regimes and nitrogen rates on an alluvial sand in a semi-arid subtropical climate 42 (1997) 33
 Galantini, J.A. and R.A. Rosell
 Organic fractions, N, P and S changes in an Argentine semiarid Haplustoll under different crop sequences 42 (1997) 221
 George, P.J., *see* Cogle, A.L. et al.
 Gill, B.S., *see* Gajri, P.R. et al.

Subject Index, Volumes 41–44

Aggregate stability

Effects of winter cover crops and successive spring tillage on soil aggregation, 44 (1997) 109

Aggregates

Estimating the hydraulic conductivity of aggregates conditioned by different tillage treatments from sorption measurements, 41 (1997) 141

Aggregation

Residue management, conservation tillage and soil restoration for mitigating greenhouse effect by CO₂-enrichment, 43 (1997) 81

Agricultural traffic

The effect of vehicle weight on the distribution of compaction with depth and the yield of *Lolium/Trifolium* grassland, 41 (1997) 1

Amelioration of soil physical

Effects of trench planting and soil chiselling on soil properties and citrus production in hilly ultisols of China, 43 (1997) 309

Basin listing

Evaluation of fallow management practices in a rainfed vertisol of peninsular India, 43 (1997) 319

Bent leg tool

A method for dynamic measurement of soil failure patterns caused by tillage tools, 41 (1997) 119

Brazil

Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23

Brush weeder

Intra-row mechanical weed control—possibilities and problems, 41 (1997) 87

Bulk density

Effect of deep tillage on soil physical characteristics and corn (*Zea mays* L.) root growth and production, 43 (1997) 219

Management versus inherent soil properties effects on bulk density and relative compaction, 44 (1997) 81

Measuring differences in soil properties in soils with different cultivation practices using computer tomography, 44 (1997) 1

Canopy chamber

Tillage-induced soil carbon dioxide loss from different cropping systems, 41 (1997) 105

Carbon

Impact of tillage practices on organic carbon and nitrogen storage in cool, humid soils of eastern Canada, 41 (1997) 191

Cassava

Effect of land preparation method and potassium application on the growth and storage root yield of cassava in an acid Ultisol, 41 (1997) 149

Catch crop

Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203

Chemical composition

Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261

Chisel tillage

Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221

Chiselling

Chiselling effects on the vertical distribution of rock fragments in the tilled layer of a Mediterranean soil, 44 (1997) 55

Citrus production

Effects of trench planting and soil chiselling on soil properties and citrus production in hilly ultisols of China, 43 (1997) 309

Clay soil

Barley, canola and wheat production under different tillage-fallow-green manure combinations on a clay soil in a cold, semiarid climate, 43 (1997) 263

Coarse sand

Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203

Coastal plain

Correction of cone index for soil water content differences in a coastal plain soil, 43 (1997) 205

Cold semiarid climate

Barley, canola and wheat production under different tillage-fallow-green manure combinations on a clay soil in a cold, semiarid climate, 43 (1997) 263

Compatibility

Assessing the compaction susceptibility of South African forestry soils. II. Soil properties affecting compatibility and compressibility, 43 (1997) 335

Compartmental bunding

Evaluation of fallow management practices in a rainfed vertisol of peninsular India, 43 (1997) 319

Compressibility

Assessing the compaction susceptibility of South African forestry soils. I. The effect of soil type, water content and applied pressure on uni-axial compaction, 41 (1997) 53

Assessing the compaction susceptibility of South African forestry soils. II. Soil properties affecting compatibility and compressibility, 43 (1997) 335

Compression index

Assessing the compaction susceptibility of South African forestry soils. I. The effect of soil type, water content and applied pressure on uni-axial compaction, 41 (1997) 53

Assessing the compaction susceptibility of South African forestry soils. II. Soil properties affecting compatibility and compressibility, 43 (1997) 335

Effects of uniaxial stress on the physical properties of four Swedish soils, 44 (1997) 13

Computer tomography

Measuring differences in soil properties in soils with different cultivation practices using computer tomography, 44 (1997) 1

Cone index

Correction of cone index for soil water content differences in a coastal plain soil, 43 (1997) 205

Tillage and residue effects on root growth and yields of grain sorghum following wheat, 44 (1997) 121

Conjunctive use

Use of crop residue and manure to conserve water and enhance nutrient availability and pearl millet yields in an arid tropical region, 41 (1997) 43

Conservation tillage

A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169

Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Conventional tillage

Tillage and residue effects on root growth and yields of grain sorghum following wheat, 44 (1997) 121

Corn

Stand, yield, weed biomass, and surface residue cover comparisons between three cropping/tilage systems on a well-drained silt loam soil in Ohio, USA, 44 (1997) 95

Cotton

Retention of cotton stubble enhances N fertilizer recovery and lint yield of irrigated cotton, 41 (1997) 75

Cover crop

Effects of winter cover crops and successive spring tillage on soil aggregation, 44 (1997) 109

Crop development

Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25

Crop diseases

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Crop growth

Barley, canola and wheat production under different tillage-fallow-green manure combinations on a clay soil in a cold, semiarid climate, 43 (1997) 263

Crop residue management

Residue management, conservation tillage and soil restoration for mitigating greenhouse effect by CO₂-enrichment, 43 (1997) 81

Crop residues

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Crop rotation

A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169

Influence of tillage, crop rotation and nitrogen fertilization on soil organic matter and nitrogen under rain-fed Mediterranean conditions, 43 (1997) 277

Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Crop stability

Effect of tillage and contour diking on sorghum establishment and yield on sandy clay soil in Sudan, 43 (1997) 229

Crop stress factors

Soil tilth—the desired soil structural state obtained through proper soil fragmentation and reorientation processes, 43 (1997) 7

Crop yield

Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25
Effects of deep tillage under rainfed agriculture on production of sorghum (*Sorghum bicolor* L. Moench) intercropped with green gram (*Vigna radiata* L. Wilczek) in western India, 43 (1997) 241

Cropping and tillage systems

Stand, yield, weed biomass, and surface residue cover comparisons between three cropping/tilage systems on a well-drained silt loam soil in Ohio, USA, 44 (1997) 95

Cropping systems

Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Deep tillage

Effect of deep tillage on soil physical characteristics and corn (*Zea mays* L.) root growth and production, 43 (1997) 219

Effects of deep tillage under rainfed agriculture on production of sorghum (*Sorghum bicolor* L. Moench) intercropped with green gram (*Vigna radiata* L. Wilczek) in western India, 43 (1997) 241

Deforestation

Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Degree of compactness

Effects of uniaxial stress on the physical properties of four Swedish soils, 44 (1997) 13

Denitrification

Retention of cotton stubble enhances N fertilizer recovery and lint yield of irrigated cotton, 41 (1997) 75

Diking

Effect of tillage and contour diking on sorghum establishment and yield on sandy clay soil in Sudan, 43 (1997) 229

Disease-suppressive soils

A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169

Draft

Effect of design parameters of flat tillage tools on loosening of a clay soil, 43 (1997) 195

Earthworms

Earthworm channels in cultivated clayey and loamy Norwegian soils, 43 (1997) 251

Efficiency

Effect of design parameters of flat tillage tools on loosening of a clay soil, 43 (1997) 195

Environmental damage costs

Socio-economics of alternative tillage systems, 43 (1997) 109

Erosion

Experience in developing erosion resistant agrolandscapes on large watersheds (a case study from the Ukraine), 43 (1997) 185

Evaporativity

Tillage and evaporativity effects on the drying characteristics of a silty loam: evaporation prediction models, 41 (1997) 127

Evapotranspiration

Growth, yield and water use efficiency of winter barley in response to conservation tillage in a semi-arid region of Spain, 44 (1997) 35

Externalities

Socio-economics of alternative tillage systems, 43 (1997) 109

Fallow

Barley, canola and wheat production under different tillage-fallow-green manure combinations on a clay soil in a cold, semiarid climate, 43 (1997) 263

Fallow management

Evaluation of fallow management practices in a rainfed vertisol of peninsular India, 43 (1997) 319

Fallowing

Growth, yield and water use efficiency of winter barley in response to conservation tillage in a semi-arid region of Spain, 44 (1997) 35

Farming systems

Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261

Fertilizer recovery

Retention of cotton stubble enhances N fertilizer recovery and lint yield of irrigated cotton, 41 (1997) 75

Field conditions

Wear of symmetrical wedge-shaped tillage tools, 43 (1997) 295

Forestry soils

Assessing the compaction susceptibility of South African forestry soils. I. The effect of soil type, water content and applied pressure on uni-axial compaction, 41 (1997) 53

Assessing the compaction susceptibility of South African forestry soils. II. Soil properties affecting compactibility and compressibility, 43 (1997) 335

Full accounting

Socio-economics of alternative tillage systems, 43 (1997) 109

Fumigation

Incorporation of tracers and dazomet by rotary tillers and a spading machine, 41 (1997) 237

Furrow diking

Tillage and residue effects on root growth and yields of grain sorghum following wheat, 44 (1997) 121

Gaseous N losses

Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221

Greenhouse effect

Residue management, conservation tillage and soil restoration for mitigating greenhouse effect by CO₂-enrichment, 43 (1997) 81

Greenhouse gases

Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Herbicides

Stand, yield, weed biomass, and surface residue cover comparisons between three cropping/tilage systems on a well-drained silt loam soil in Ohio, USA, 44 (1997) 95

Hop gardens

Soil management in perennial crops: orchards and hop gardens, 43 (1997) 169

Hydraulic conductivity

Estimating the hydraulic conductivity of aggregates conditioned by different tillage treatments from sorption measurements, 41 (1997) 141

Image analysis

Soil structural quality: a case study of soil macropore attributes after seedbed preparation with different wheel traffic systems, 41 (1997) 249

Immobilization

Retention of cotton stubble enhances N fertilizer recovery and lint yield of irrigated cotton, 41 (1997) 75

Interparticle percolation

Chiselling effects on the vertical distribution of rock fragments in the tilled layer of a Mediterranean soil, 44 (1997) 55

Intra-row mechanical weed cont

Intra-row mechanical weed control—possibilities and problems, 41 (1997) 87

Kinetic sieving

Chiselling effects on the vertical distribution of rock fragments in the tilled layer of a Mediterranean soil, 44 (1997) 55

Land restoration

Residue management, conservation tillage and soil restoration for mitigating greenhouse effect by CO₂-enrichment, 43 (1997) 81

Land use and planning

Experience in developing erosion resistant agrolandscapes on large watersheds (a case study from the Ukraine), 43 (1997) 185

Long-term experiments

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Macropores

Earthworm channels in cultivated clayey and loamy Norwegian soils, 43 (1997) 251

Macroporosity

Measuring differences in soil properties in soils with different cultivation practices using computer tomography, 44 (1997) 1

Maize

Soil penetration resistance, root growth and yield of maize as influenced by tillage system on ridges in Malawi, 41 (1997) 13

Management systems evaluation

Stand, yield, weed biomass, and surface residue cover comparisons between three cropping/til-

- lage systems on a well-drained silt loam soil in Ohio, USA, 44 (1997) 95
- Marginal lands**
Effect of tillage and contour diking on sorghum establishment and yield on sandy clay soil in Sudan, 43 (1997) 229
- Mathematical model of wear**
Wear of symmetrical wedge-shaped tillage tools, 43 (1997) 295
- Maximum bulk density**
Assessing the compaction susceptibility of South African forestry soils. II. Soil properties affecting compactibility and compressibility, 43 (1997) 335
- Microbial antagonism**
A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169
- Microprocessor**
A method for dynamic measurement of soil failure patterns caused by tillage tools, 41 (1997) 119
- Mineral N**
Influence of tillage, crop rotation and nitrogen fertilization on soil organic matter and nitrogen under rain-fed Mediterranean conditions, 43 (1997) 277
- Models**
Experience in developing erosion resistant agrolandscapes on large watersheds (a case study from the Ukraine), 43 (1997) 185
- Mole drainage**
Frequency composition of traction and tillage forces on a mole plough, 44 (1997) 67
- Mole plough**
Frequency composition of traction and tillage forces on a mole plough, 44 (1997) 67
- Multiple regression**
Management versus inherent soil properties effects on bulk density and relative compaction, 44 (1997) 81
- N cycling**
Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221
Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165
- N fertilizer**
Influence of tillage, crop rotation and nitrogen fertilization on soil organic matter and nitrogen under rain-fed Mediterranean conditions, 43 (1997) 277
- N-use efficiency**
Use of crop residue and manure to conserve water and enhance nutrient availability and pearl millet yields in an arid tropical region, 41 (1997) 43
- Net benefits to society**
Socio-economics of alternative tillage systems, 43 (1997) 109
- Nitrate leaching**
Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203
- Nitrogen**
Impact of tillage practices on organic carbon and nitrogen storage in cool, humid soils of eastern Canada, 41 (1997) 191
Retention of cotton stubble enhances N fertilizer recovery and lint yield of irrigated cotton, 41 (1997) 75
- No-till**
Effect of deep tillage on soil physical characteristics and corn (*Zea mays L.*) root growth and production, 43 (1997) 219
- No-tillage**
Growth, yield and water use efficiency of winter barley in response to conservation tillage in a semi-arid region of Spain, 44 (1997) 35
Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221
Tillage and residue effects on root growth and yields of grain sorghum following wheat, 44 (1997) 121

- Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165**
- Orchards**
Soil management in perennial crops: orchards and hop gardens, 43 (1997) 169
- Organic carbon**
Effects of winter cover crops and successive spring tillage on soil aggregation, 44 (1997) 109
- Organic matter**
Impact of tillage practices on organic carbon and nitrogen storage in cool, humid soils of eastern Canada, 41 (1997) 191
Influence of tillage, crop rotation and nitrogen fertilization on soil organic matter and nitrogen under rain-fed Mediterranean conditions, 43 (1997) 277
- Oxisol**
Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23
- Paper pots**
Intra-row mechanical weed control—possibilities and problems, 41 (1997) 87
- Pathogen interactions**
A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169
- Penetration resistance**
Soil penetration resistance, root growth and yield of maize as influenced by tillage system on ridges in Malawi, 41 (1997) 13
- Penetrometer**
Correction of cone index for soil water content differences in a coastal plain soil, 43 (1997) 205
- Penetrometer resistance**
Effect of deep tillage on soil physical characteristics and corn (*Zea mays L.*) root growth and production, 43 (1997) 219
- Perennial crops**
Soil management in perennial crops: orchards and hop gardens, 43 (1997) 169
- Pesticide incorporation**
Incorporation of tracers and dazomet by rotary tillers and a spading machine, 41 (1997) 237
- Pesticides**
Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165
- Phosphorus availability**
Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23
- Phosphorus distribution**
Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23
- Phosphorus fractionation**
Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23
- Plant disease**
A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169
- Planting method**
Effects of trench planting and soil chiselling on soil properties and citrus production in hilly ultisols of China, 43 (1997) 309
- Planting system**
Intra-row mechanical weed control—possibilities and problems, 41 (1997) 87
- Potassium**
Effect of land preparation method and potassium application on the growth and storage root yield of cassava in an acid Ultisol, 41 (1997) 149

Prediction models

Tillage and evaporativity effects on the drying characteristics of a silty loam: evaporation prediction models, 41 (1997) 127

Primary tillage

Evaluation of fallow management practices in a rainfed vertisol of peninsular India, 43 (1997) 319

Rain-fed Mediterranean conditi

Influence of tillage, crop rotation and nitrogen fertilization on soil organic matter and nitrogen under rain-fed Mediterranean conditions, 43 (1997) 277

Random process

Frequency composition of traction and tillage forces on a mole plough, 44 (1997) 67

Reduced and conventional tills

Measuring differences in soil properties in soils with different cultivation practices using computer tomography, 44 (1997) 1

Reduced tillage

Growth, yield and water use efficiency of winter barley in response to conservation tillage in a semi-arid region of Spain, 44 (1997) 35
Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203

Relative compaction

Management versus inherent soil properties effects on bulk density and relative compaction, 44 (1997) 81

Residual N

Use of crop residue and manure to conserve water and enhance nutrient availability and pearl millet yields in an arid tropical region, 41 (1997) 43

Ridge

Effect of land preparation method and potassium application on the growth and storage root yield of cassava in an acid Ultisol, 41 (1997) 149

Soil penetration resistance, root growth and yield of maize as influenced by tillage system on ridges in Malawi, 41 (1997) 13

Ridge share

Wear of symmetrical wedge-shaped tillage tools, 43 (1997) 295

Ridge tillage

Soil management and nitrous oxide emissions from cultivated fields in southern Ohio, 41 (1997) 221

Rock fragments

Chiselling effects on the vertical distribution of rock fragments in the tilled layer of a Mediterranean soil, 44 (1997) 55

Root growth

Soil penetration resistance, root growth and yield of maize as influenced by tillage system on ridges in Malawi, 41 (1997) 13

Root length density

Effect of deep tillage on soil physical characteristics and corn (*Zea mays* L.) root growth and production, 43 (1997) 219

Root systems

Soil tilth—the desired soil structural state obtained through proper soil fragmentation and reorientation processes, 43 (1997) 7

Root zone microflora

A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169

Roots

Earthworm channels in cultivated clayey and loamy Norwegian soils, 43 (1997) 251

Rotary tillers

Incorporation of tracers and dazomet by rotary tillers and a spading machine, 41 (1997) 237

Runoff

Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261

Sandy loam

Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203

Sensor

A method for dynamic measurement of soil failure patterns caused by tillage tools, 41 (1997) 119

Shallow tillage

Evaluation of fallow management practices in a rainfed vertisol of peninsular India, 43 (1997) 319

Silty loam

Tillage and evaporativity effects on the drying characteristics of a silty loam: evaporation prediction models, 41 (1997) 127

Smallholder

Soil penetration resistance, root growth and yield of maize as influenced by tillage system on ridges in Malawi, 41 (1997) 13

Soil aeration

Physical properties of tilled soils, 43 (1997) 41

Soil biology

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Soil carbon dynamics

Residue management, conservation tillage and soil restoration for mitigating greenhouse effect by CO₂-enrichment, 43 (1997) 81

Soil carbon

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Tillage-induced soil carbon dioxide loss from different cropping systems, 41 (1997) 105

Soil chamber

Tillage-induced soil carbon dioxide loss from different cropping systems, 41 (1997) 105

Soil compaction

Assessing the compaction susceptibility of South African forestry soils. I. The effect of

soil type, water content and applied pressure on uni-axial compaction, 41 (1997) 53

Assessing the compaction susceptibility of South African forestry soils. II. Soil properties affecting compactibility and compressibility, 43 (1997) 335

Effects of uniaxial stress on the physical properties of four Swedish soils, 44 (1997) 13

Soil conservation

Ciselling effects on the vertical distribution of rock fragments in the tilled layer of a Mediterranean soil, 44 (1997) 55

Soil description

Earthworm channels in cultivated clayey and loamy Norwegian soils, 43 (1997) 251

Soil failure front

A method for dynamic measurement of soil failure patterns caused by tillage tools, 41 (1997) 119

Soil fragmentation

Soil tilth—the desired soil structural state obtained through proper soil fragmentation and reorientation processes, 43 (1997) 7

Soil loosening

Effect of design parameters of flat tillage tools on loosening of a clay soil, 43 (1997) 195

Soil macropore

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Soil structural quality: a case study of soil macropore attributes after seedbed preparation with different wheel traffic systems, 41 (1997) 249

Soil management

Management versus inherent soil properties effects on bulk density and relative compaction, 44 (1997) 81

Soil management in perennial crops: orchards and hop gardens, 43 (1997) 169

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Soil moisture

Barley, canola and wheat production under different tillage-fallow-green manure combina-

tions on a clay soil in a cold, semiarid climate, 43 (1997) 263

Soil morphology

Earthworm channels in cultivated clayey and loamy Norwegian soils, 43 (1997) 251

Soil nitrogen

Tillage-induced soil carbon dioxide loss from different cropping systems, 41 (1997) 105

Soil organic C

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Soil phosphorus

Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23

Soil physical parameters

Effects of deep tillage under rainfed agriculture on production of sorghum (*Sorghum bicolor* L. Moench) intercropped with green gram (*Vigna radiata* L. Wilczek) in western India, 43 (1997) 241

Soil physical properties

Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25
The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Soil physics

Physical properties of tilled soils, 43 (1997) 41

Soil profile

Impact of tillage practices on organic carbon and nitrogen storage in cool, humid soils of eastern Canada, 41 (1997) 191

Soil properties

Soil and crop responses to soil tillage systems: a Polish perspective, 43 (1997) 65
Use of crop residue and manure to conserve water and enhance nutrient availability and pearl millet yields in an arid tropical region, 41 (1997) 43

Soil quality

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Soil reclamation

Effects of trench planting and soil chiselling on soil properties and citrus production in hilly ultisols of China, 43 (1997) 309

Soil respiration

Tillage-induced soil carbon dioxide loss from different cropping systems, 41 (1997) 105

Soil stability

Physical properties of tilled soils, 43 (1997) 41

Soil strength

Correction of cone index for soil water content differences in a coastal plain soil, 43 (1997) 205

Physical properties of tilled soils, 43 (1997) 41

Soil structure

Physical properties of tilled soils, 43 (1997) 41
Soil structural quality: a case study of soil macropore attributes after seedbed preparation with different wheel traffic systems, 41 (1997) 249

Soil tilth—the desired soil structural state obtained through proper soil fragmentation and reorientation processes, 43 (1997) 7

Tillage system impacts on environmental quality and soil biological parameters, 41 (1997) 165

Soil tillage

Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203

Soil water

Correction of cone index for soil water content differences in a coastal plain soil, 43 (1997) 205

Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261

Physical properties of tilled soils, 43 (1997) 41

Soil / vehicle relationship

The effect of vehicle weight on the distribution of compaction with depth and the yield of *Lolium/Trifolium* grassland, 41 (1997) 1

Solute infiltration

Measuring differences in soil properties in soils with different cultivation practices using computer tomography, 44 (1997) 1

Sorghum equivalent yield

Effects of deep tillage under rainfed agriculture on production of sorghum (*Sorghum bicolor* L. Moench) intercropped with green gram (*Vigna radiata* L. Wilczek) in western India, 43 (1997) 241

Sorghum

Effect of tillage and contour diking on sorghum establishment and yield on sandy clay soil in Sudan, 43 (1997) 229

Sorption measurements

Estimating the hydraulic conductivity of aggregates conditioned by different tillage treatments from sorption measurements, 41 (1997) 141

Soybean

Stand, yield, weed biomass, and surface residue cover comparisons between three cropping/tillage systems on a well-drained silt loam soil in Ohio, USA, 44 (1997) 95

Spading machine

Incorporation of tracers and dazomet by rotary tillers and a spading machine, 41 (1997) 237

Spectral analysis

Frequency composition of traction and tillage forces on a mole plough, 44 (1997) 67

Spring barley

Nitrate leaching as influenced by soil tillage and catch crop, 41 (1997) 203

Spring tillage

Effects of winter cover crops and successive spring tillage on soil aggregation, 44 (1997) 109

Structure stability

Soil tilth—the desired soil structural state obtained through proper soil fragmentation and reorientation processes, 43 (1997) 7

Stubble

Retention of cotton stubble enhances N fertilizer recovery and lint yield of irrigated cotton, 41 (1997) 75

Subsoil compaction

Effect of deep tillage on soil physical characteristics and corn (*Zea mays* L.) root growth and production, 43 (1997) 219

The effect of vehicle weight on the distribution of compaction with depth and the yield of *Lolium/Trifolium* grassland, 41 (1997) 1

Subsoil decompaction

Effect of deep tillage on soil physical characteristics and corn (*Zea mays* L.) root growth and production, 43 (1997) 219

Sunflower

Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25

Sustainable agriculture

The role of soil organic matter in maintaining soil quality in continuous cropping systems, 43 (1997) 131

Tactile hoe

Intra-row mechanical weed control—possibilities and problems, 41 (1997) 87

Temperate humid climates

A review of plant disease, pathogen interactions and microbial antagonism under conservation tillage in temperate humid agriculture, 41 (1997) 169

Tillage

Barley, canola and wheat production under different tillage-fallow-green manure combinations on a clay soil in a cold, semiarid climate, 43 (1997) 263

Distribution of phosphorus fractions in a Brazilian Oxisol under different tillage systems, 44 (1997) 23

Effect of design parameters of flat tillage tools on loosening of a clay soil, 43 (1997) 195

Effect of tillage and contour diking on sorghum establishment and yield on sandy clay soil in Sudan, 43 (1997) 229

- Wear of symmetrical wedge-shaped tillage tools, 43 (1997) 295
- Tillage treatments**
- Estimating the hydraulic conductivity of aggregates conditioned by different tillage treatments from sorption measurements, 41 (1997) 141
- Tool geometry**
- Effect of design parameters of flat tillage tools on loosening of a clay soil, 43 (1997) 195
- Traction force**
- Frequency composition of traction and tillage forces on a mole plough, 44 (1997) 67
- Traditional tillage**
- Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25
- Tropical soils**
- Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261
- Ultisols**
- Effects of trench planting and soil chiselling on soil properties and citrus production in hilly ultisols of China, 43 (1997) 309
- Uni-axial compaction**
- Assessing the compaction susceptibility of South African forestry soils. I. The effect of soil type, water content and applied pressure on uni-axial compaction, 41 (1997) 53
- Uniaxial stress**
- Effects of uniaxial stress on the physical properties of four Swedish soils, 44 (1997) 13
- Vertisols**
- Evaluation of fallow management practices in a rainfed vertisol of peninsular India, 43 (1997) 319
- Water depletion**
- Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25
- Water logged soils**
- Frequency composition of traction and tillage forces on a mole plough, 44 (1997) 67
- Water quality**
- Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261
- Watercourse loadings**
- Socio-economics of alternative tillage systems, 43 (1997) 109
- Watershed**
- Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261
- Wear test**
- Wear of symmetrical wedge-shaped tillage tools, 43 (1997) 295
- Weeder harrow**
- Intra-row mechanical weed control—possibilities and problems, 41 (1997) 87

West Africa

Deforestation, tillage and cropping systems effects on seepage and runoff water quality from a Nigerian Alfisol, 41 (1997) 261

Wheat

Soil physical properties, water depletion and crop development under traditional and conservation tillage in southern Spain, 41 (1997) 25

Wheel traffic

Soil structural quality: a case study of soil macropore attributes after seedbed preparation a Polish perspective, 43 (1997) 65

with different wheel traffic systems, 41 (1997)
249

Yield components

Growth, yield and water use efficiency of winter barley in response to conservation tillage in a semi-arid region of Spain, 44 (1997) 35

Yield forming factors

Soil and crop responses to soil tillage systems:
